https://www.trybooking.com/TANC

**Keynote Speakers**

---

Call for Abstracts

Abstracts should be emailed to
Dr Craig Donaldson
E: CraigDonaldson@msn.com.au

Please include your name and most effective contact email.

Two types of presentations are sought:

1. **Research Papers**
   These will require a summary with the following format:
   - Authors (with presenter highlighted)
   - Title of the paper
   - Purpose
   - Methods
   - Results
   - Conclusions
   You will be allocated 10 mins so please bear this in mind when planning your presentation.

2. **Case Presentations**
   These can be PowerPoint presentations for the Friday morning session, or live cases for the Saturday morning.
   These cases generally form one of the most interesting and enjoyable parts of the meeting, with each presentation followed by a panel and audience discussion regarding the management options.
   The live cases will be examined by the panel beforehand on the Saturday morning.
   Please consider participating in this section if you have interesting or challenging cases to share.
   For submission please provide your name, email contact and a brief summary of the case.
   PC and Mac computer will be available at the conference venue. All presenters must load their presentations including videos onto the provided computers at the venue, to facilitate timely running of the presentations.
