Selection and Appointment into RANZCO Vocational Training Program Policy

Approved by: Board
Version: Current
Department: Education & Member Support

Next review date: 5 December 2025
Approval date: 5 December 2022
Policy inventory number: 42.2022.12 03
1. Introduction

1.1. Purpose

The purpose of this Policy is to establish the principles and requirements for an applicant to be selected and appointed to the RANZCO Vocational Training Program (VTP) as a trainee or a Temporary Training Registrar (TTR).

This Policy:

- Provides transparency for VTP applicants in terms of understanding RANZCO’s VTP selection requirements and appointments.
- Provides transparency for applicants who are appointed as Temporary Training Registrars and outlines the implications of this appointment with regard to the RANZCO VTP.
- Outlines the requirements Network Selection Committees must follow when completing their stage of the selection and appointment process, including the appointment of trainees and/or TTRs.
- To specify any Exceptions to the above.

1.2. Who is it prepared for?

This Policy is prepared for:

- Prospective RANZCO VTP trainees
- Prospective RANZCO TTRs
- Health jurisdictions and Network Selection Committees who make the employment decisions
- The Censor-in-Chief
- RANZCO Fellows including, but not limited to, Network Selection Chairs, Network QEC Chairs and Directors of Training, any stakeholder of the RANZCO centralised selection and appointment process.

1.3. Scope

This Policy pertains to any and all selections and appointments to the RANZCO VTP. However, RANZCO is not an employer, and each network is responsible for the employment of successful applicants.
1.4. Definitions

**Applicant** means a medical practitioner who is applying for selection into the VTP.

**Censor-in-Chief (CiC)** means the person appointed to oversee all aspects of training and assessment conducted as part of the RANZCO VTP.

**Centralised Pool** means the pool of applicants to the RANZCO VTP who have satisfactorily completed the centralised selection process and are eligible to be employed by a health jurisdiction.

**CEO** means the College’s Chief Executive Officer as appointed from time-to-time.

**Head of Department (HoD)** means the person appointed with oversight and responsibility for a hospital department.

**Health jurisdiction** means the local health agency or board with oversight of public health services throughout a defined geographic area.

**NOMP** means the National Ophthalmic Matching Program.

**NOMP Coordinator** means a RANZCO Fellow who oversees the matching of each Training Network’s selections and rankings of applicants for employment in the network’s training posts to applicants’ employment preferences.

**RANZCO or The College** means The Royal Australian and New Zealand College of Ophthalmologists (RANZCO).

**RANZCO Board** means the RANZCO Board of Directors.

**RANZCO Education Committee (REC)** means the governing body chaired by the CiC responsible to the RANZCO Board for education and training policy and program management.

**Selection Committee** means the RANZCO Selection Committee as defined in the Selection Committee Terms of Reference.

**Selection Panel** means the RANZCO Selection Panel as defined in the Selection Panel Terms of Reference.

**Temporary Training Registrar (TTR)** means a medical practitioner appointed to relieve in an accredited training post due to an employment vacancy. Appointment as a TTR is not an appointment to the VTP and carries no guarantee of same.

**Trainee** means a medical practitioner enrolled in the RANZCO Vocational Training Program (VTP).

**Training Network** means a collection of RANZCO-accredited Training Posts.

**Training Network Selection Committee** means a Committee in each Training Network responsible for selecting applicants into accredited ophthalmology training positions.

**VTP** means RANZCO Vocational Training Program.
2. Strategic Alignment

This Policy aligns with RANZCO’s strategic goals of attracting, training and developing comprehensive general ophthalmologists. It seeks to address issues of workforce maldistribution and to attract and develop more First Nations ophthalmologists across Australia and New Zealand.

3. Background and Issues

RANZCO delivers a Vocational Training Program (VTP) for medical practitioners who want to become specialist ophthalmologists in Australia and/or New Zealand. The objective of the VTP is to develop a specialist ophthalmologist who, on completion of training, is equipped to undertake safe, independent, comprehensive, general ophthalmology practice. The Progression Committee will review a trainee’s performance at key progression points to decide if they have satisfactorily completed the milestones, training and assessment requirements documented in the Progression Policy for the relevant stage of training and are eligible to retain their place on the VTP and progress to the next stage of training.

RANZCO defines and administers a centralised selection process that identifies a Centralised Pool of applicants from which health jurisdictions, through Training Network Selection Committees, can select employees. These applicants are either employed on:

- an ongoing basis and accepted as trainees by RANZCO to undertake the VTP in RANZCO accredited training posts, or
- a temporary basis (TTRs) in RANZCO accredited training posts which are temporarily vacant and are not accepted by RANZCO as trainees. (refer 5.2.3)

The Training Network Selection Committees have autonomy to make their final selection decisions using the final Centralised Pool, and the processes, weightings, and tools they deem appropriate. As such, applicants are advised to consider both the RANZCO weightings and those of their preferred Network(s) when preparing their application. The weightings and preferences of the networks can differ from those of RANZCO to suit their local circumstances.

4. Objectives

- Ensure transparency and fairness in the selection and appointment of trainees and TTRs.
- Provide a consistent and robust centralised selection process.
- Ensure the medical practitioners accepted by RANZCO to undertake the VTP have the potential to satisfactorily complete the program.
- Support the RANZCO-led centralised process using evidence-based tools to assess applicants’ attributes against RANZCO’s selection criteria.
5. Policies

5.1. Application

5.1.1 Application Eligibility Criteria

The application and eligibility criteria for all medical practitioners, including trainees and TTRs, who are appointed to RANZCO accredited training posts are:

a) Medical degree with full registration to practice medicine in either Australia or New Zealand at the time of applying.

b) Citizenship or permanent resident status of Australia or New Zealand. An applicant’s Citizenship or residency status must be confirmed by 1 April of the year/s they apply.

c) Completion of a minimum of two years, full time post graduate prevocational experience, (including the intern year), when they commence the VTP, which must include a minimum of 18 months of broad experience in medical, clinical and surgical settings other than ophthalmology.

Meeting the RANZCO eligibility criteria does not guarantee appointment to a RANZCO accredited training post or RANZCO accepting a medical practitioner into the VTP.

There is no limit to the number of times an applicant can apply.

Applicants are required to complete all application forms in full and honestly, meet published deadlines and provide payment as outlined in the published forms. Applicants are advised to ensure the information they provide is complete and not misleading. A requirement of application is to sign a statutory declaration to this effect.

Applicants waive their right to privacy should RANZCO deem it necessary to investigate claims made by the applicant during the selection process. Applicants consent that all information captured during the centralised selection process can be shared with the Selection Committee and Panel and Training Network Selection Committees. In all investigations, RANZCO will adhere to the principles of natural justice and procedural fairness.

Applicants who believe a Conflict of Interest exists can access the RANZCO Conflict of Interest Policy and corresponding Concerns Notice Form.

5.1.2 Application Process

RANZCO staff administer the application process and use a range of third-party suppliers to manage various components of this.

RANZCO reserves the right to change the process due to unforeseen circumstances. Should this occur, all reasonable steps will be taken to inform applicants of changes.

RANZCO reserves the right to reduce the number of applicants at any stage in the selection process until the final Centralised Pool is approved by the Selection Committee.

RANZCO will run selection assessments, from a limited number of centres, regardless of the location of selection applicants. While applicants can lodge requests to change the date, time or location of an assessment, RANZCO is not required to meet such requests, regardless of
the underlying circumstances of the request. These decisions are not subject to reconsideration, review or appeal.

Applicants requiring reasonable adjustments to the format of a selection assessment must submit requests in writing by the time Registrations close. RANZCO will make all reasonable efforts to meet such requests. Please refer to the RANZCO Special Considerations for Assessments and Examinations Policy.

Applicant requests to deviate from the established process will generally not be considered. In exceptional cases, the Selection Committee Chair, in consultation with the RANZCO CEO and Censor-in-Chief, may review the request and make a determination. Their decision is to be documented and is not subject to reconsideration, review, or appeal.

During the application process, if RANZCO obtains information about an applicant from a third party that could reasonably affect the outcome of their application, RANZCO will take all reasonable steps to provide that information to the applicant.

5.1.3 Centralised Selection Assessment

On the recommendation of the Selection Committee, the RANZCO Board approves the weightings of tools and criteria used in the centralised selection assessment. RANZCO publishes the VTP Selection Criteria, Selection Methods and Weightings used in this assessment on its website. RANZCO maintains the right to adjust these on an annual basis and a finalised version will be available to applicants at the time the annual Selection registrations open.

The Centralised Pool is determined following the collection of data from the centralised selection assessment and sign-off from the Selection Committee. This marks the end of the centralised selection assessment.

5.1.4 Network-based Shortlisting

The Training Network Selection Committee must only shortlist applicants from the Centralised Pool. Training Network Selection Committees must use at least 65% of the centralised points without changing the weighting in any of the categories. For the remaining 35% they have autonomy to make their selection decisions using processes, weightings and tools they deem appropriate, including speaking with referees and conducting local interviews.

5.1.5 National Ophthalmic Matching Program (NOMP)

The Co-ordinator for the National Ophthalmic Matching Program (NOMP) matches each Training Network’s selections and rankings of applicants for employment in the network’s RANZCO accredited training posts to applicants’ employment preferences. Applicants are primarily matched in accordance with their preferences. Applicants who are matched by the NOMP are accepted by RANZCO as RANZCO trainees and to undertake the VTP in RANZCO accredited training posts.

Successful applicants will receive an offer of employment in a RANZCO accredited training post from the training network/employing authority they are matched with. Each training network/employing authority will inform RANZCO which applicants accept employment offers.
RANZCO does not allow trainees it accepts to undertake the VTP in RANZCO accredited training posts, to defer their first year of training. If a trainee is not able to commence training in the training year to which they are selected to commence training, they must relinquish the training position.

Unsuccessful applicants will be informed by RANZCO that they were not matched to an accredited training post and will receive feedback about their performance in the RANZCO centralised assessment to inform any future applications to enter the VTP.

Feedback will be general feedback and no further feedback will be provided by RANZCO. Training Networks may provide feedback at their discretion. RANZCO does not review feedback provided to an applicant by a training network.

5.1.6 Application Outcomes

Selection results are not subject to reconsideration, review, or appeal.

Applicants who have been found to be in breach of this Policy will be eliminated from the Application Process. A notation of this outcome remains on their file for all future applications and the Training Network Selection Committees will be informed.

5.2. Appointment

5.2.1 Appointment Eligibility Criteria

Training networks can appoint to RANZCO accredited training posts, as either trainees or TTRs, only those medical practitioners who have been through the full RANZCO Vocational Training Program application and selection process and short-listed to the Centralised Pool.

5.2.2 Employment Decisions

RANZCO is not an employer. The Training Network Selection Committee of each training network is solely responsible for selecting trainees or TTRs for employment in RANZCO accredited training posts. State health departments, district health boards, and teaching hospitals/organisations with RANZCO accredited training posts are solely responsible for deciding which applicants from the Centralised Pool to employ in these posts, offering employment to applicants and for employment arrangements with applicants who accept employment offers.

5.2.3 Appointment Process

Applicants from the appropriate confirmed Centralised Pool can be appointed to trainee or TTR positions.

Applicants matched at NOMP are appointed to the Vocational Training Program.
RANZCO sets the criteria and determines the application process:

1. Receive applications
2. Assess applicants
3. Short list a Centralised Pool

**CENTRALISED POOL**

Network Selection Committee reviews Centralised Pool and applies their own selection criteria

Temporary appointment to a RANZCO accredited training post which is temporarily vacant.

Not selected or appointed. Apply again later.

Appointment to a RANZCO accredited training post as a trainee as an outcome of the NOMP.
5.2.4 Appointments Outside the Annual Selection Process

In circumstances where an accredited training post becomes available unexpectedly, the network must inform RANZCO staff immediately to determine whether the appointment will be a trainee or TTR appointment.

5.2.4.1 A temporary vacancy which is the result of maternity/paternity leave may only be filled by a TTR and not a trainee. (refer 5.3)

Appointments outside the NOMP must use the results of the most recently completed Centralised Pool. The start date of the appointment will determine which results are to be used.

For appointments outside of the NOMP, prior to an employment contract being issued, the CiC and the College must be advised in writing that:

1. the proposed appointee has accepted the position.
2. the proposed appointee has been clearly advised whether their appointment is as a trainee or TTR.
   i. TTR appointments are temporary appointments.
   ii. Recognition of prior training and experience of TTRs who are subsequently accepted by RANZCO as trainees to undertake the VTP in RANZCO accredited training posts is governed by the Temporary Training Registrar Policy.

All appointees must meet the eligibility criteria under 5.2.1.

5.3 Conditions for Appointments to TTR Positions

5.3.1 A medical practitioner appointed to a TTR position is required to abide by the Policies governing the VTP.

5.3.2 A medical practitioner appointed to a TTR position understands that:
- This position is not an appointment as a trainee on the RANZCO Vocational Training Program (VTP)
- Appointment to this position carries no endorsement for further advancement, traineeship, selection or other benefit.
- The training post must continue to meet RANZCO’s Standards for Ophthalmology Training Posts.
- All applicable RANZCO fees must be paid.

5.3.3 In the case of a vacancy related to parental leave, a medical practitioner appointed to a TTR position understands that:
- The trainee may return to their position at any time and that, should this occur, the TTR must vacate the training post immediately.
### Differences between a RANZCO trainee and a TTR

<table>
<thead>
<tr>
<th>Trainee Appointment</th>
<th>TTR Appointment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Is for a training position in the Vocational Training Program in a RANZCO accredited training post.</td>
<td>Is for a vacancy due to interrupted training of a RANZCO trainee, including maternity or paternity leave.</td>
</tr>
<tr>
<td>Is for the duration of the Vocational Training Program, subject to satisfactory progress.</td>
<td>Is for a specified duration, as advised at the time of appointment and equal to the period of time the trainee (for whom the TTR is relieving) has interrupted their training.</td>
</tr>
<tr>
<td>Training undertaken whilst a TTR may be recognised as prior learning if the appointee is successful in gaining a trainee position on the VTP within 3 years from the TTR position (refer TTR Policy).</td>
<td></td>
</tr>
<tr>
<td>Is not a Temporary Training Registrar position.</td>
<td>Is not a trainee position and carries no guarantee of continuing employment. The position must be vacated by the TTR when the trainee returns from leave.</td>
</tr>
<tr>
<td>A trainee is employed by the network, not RANZCO.</td>
<td>A TTR is employed by the network, not RANZCO.</td>
</tr>
</tbody>
</table>

### 5.4 Exceptions

At times, networks may fail to secure interest from applicants in the Centralised Pool to fill their employment vacancies as there may be more accredited training posts temporarily vacant than the number of medical practitioners available to relieve in these posts who meet the eligibility criteria in 5.1. In such circumstances a training network may ask the CiC and Chair of the Selection Committee to approve the temporary appointment of a medical practitioner who is not in the Centralised Pool to relieve in a RANZCO accredited training post.

This request must be made with evidence accompanying why they need to temporarily appoint a medical practitioner who is not in the pool and must be made before a contract of employment is offered.

The CiC will consider each application individually and separately, without reference to arrangements or approvals that have been made previously. Their decision is not subject to appeal.

Appointments made under 5.4:

- Are not Temporary Training Registrars
- Are not trainees
- Are not eligible for Recognition of Prior Learning (RPL)

The medical practitioners who are not part of the final Centralised Pool prior to being appointed...
to relieve in an accredited training post, cannot enter the VTP without going through the full application, selection, interview and/or ranking process in the year prior to their appointment to the VTP (refer section 5)

6 Monitoring and Evaluation

RANZCO seeks to work in a partnership of consultation and co-operation with all ophthalmology training networks, hospitals and health systems, government agencies, RANZCO Fellows and others involved in the selection, appointment and education of ophthalmology specialists in Australia and New Zealand. Compliance with this Policy will be monitored through the process for accreditation of RANZCO training posts.

This Policy will be reviewed annually by the Chair of the Selection Committee.

Feedback on the Policy is sought from the Selection Committee annually.

RANZCO’s Risk Register and complaints from VTP applicants will be used to assess the Policy.

The Education Monitoring and Evaluation Framework 2021-2024 sets out the evaluation questions, methods, timeframe and reporting for monitoring and evaluating selection processes.
